EPIC: AMAZON PAYMENT

FEATURE 1: Internet Banking

User Story 1: Enable Internet Banking Payment Option

- **Tasks:**

  1. Design payment option UI for Internet Banking.
  2. Configure backend APIs to handle Internet Banking selection.

User Story 2: Display List of Supported Banks

- **Tasks:**

  1. Integrate API to fetch supported bank list dynamically.
  2. Display banks in dropdown/selection list on payment page.

User Story 3: Redirect Users to Secure Bank Gateway

- **Tasks:**

  1. Implement redirection logic to secure bank payment gateway.
  2. Handle payment responses: success, failure, and timeouts.

User Story 4: Update Order Status After Internet Banking Payment

- **Tasks:**

  1. Update payment status in database after gateway response.
  2. Trigger SMS/email notifications for successful transactions.

FEATURE 2: Credit Card Payment

User Story 1: Enable Credit Card Payment Option

- **Tasks:**

  1. Add credit card payment option in checkout UI.
  2. Configure backend to enable credit card transactions.

User Story 2: Validate Credit Card Details Before Processing

- **Tasks:**

  1. Implement validation for card number, expiry, and CVV.
  2. Encrypt sensitive card details before transmitting.

User Story 3: Process Secure Credit Card Payments via Gateway

- **Tasks:**
    1. Integrate with third-party payment gateway API.
    2. Validate transaction status after gateway response.

User Story 4: Update Order Status After Credit Card Payment

- **Tasks:**
    1. Update order details after payment success or failure.
    2. Send payment receipt via email/SMS.

FEATURE 3: Cash on Delivery (COD)

User Story 1: Enable Cash on Delivery as a Payment Option

- **Tasks:**
    1. Provide COD selection option in checkout UI.
    2. Enable backend workflows for COD orders.

User Story 2: Restrict COD for Ineligible Products/Locations

- **Tasks:**
    1. Implement logic to disable COD for unsupported regions/products.
    2. Show user-friendly messages when COD is unavailable.

User Story 3: Track COD Orders for Delivery Team

- **Tasks:**
    1. Add COD order tracking to delivery dashboard.
    2. Notify delivery agents to collect cash during delivery.

User Story 4: Update Order Status After COD Confirmation

- **Tasks:**
    1. Update database after successful COD payment.
    2. Trigger notifications confirming payment receipt.

FEATURE 4: UPI Payment

User Story 1: Enable UPI Payment Option

- **Tasks:**

    1. Add UPI as a payment option in checkout UI.

    2. Configure backend APIs for UPI transaction support.

User Story 2: Allow Users to Enter UPI ID or Choose UPI App

- **Tasks:**

    1. Create UI to enter UPI ID or select a UPI app (e.g., GPay, PhonePe).

    2. Implement validation logic for UPI ID format.

User Story 3: Integrate UPI Payment Gateway for Secure Transactions

- **Tasks:**

    1. Connect to UPI intent API for real-time payment initiation.

    2. Handle UPI transaction responses — success, failure, timeout.

User Story 4: Update Order Status After UPI Payment

- **Tasks:**

    1. Update payment status in the database after transaction.

    2. Send confirmation messages to customers post-payment.
